1.3 The Contract Documents represent the entire and integrated agreement between the parties hereto and supersede any and all prior negotiations, representations or agreements, either written or oral. Except as provided herein, this Contract may not be modified or amended except by written agreement signed by the parties.

1.4 The Agreement is this executed Standard Form of Agreement between City and Contractor.

PART 2

CONTRACT SUM

2.1 The City shall pay the Contractor, in current funds, for the Contractor’s performance of the Contract in the total lump sum amount of $____________, subject to additions and deductions as provided in the Contract Documents.

2.2 Based upon Invoices submitted by the Contractor, the City shall make payments to the Contractor for actual work performed. Invoices shall indicate a description of the work
performed and percentage completion, as specified in the Contract Documents. All payments shall be paid no later than thirty (30) days from the receipt of invoice.

2.3 Payment terms will be set at Thirty (30) days from project manager acceptance of monthly pay application.

2.4 **Retainage.** The City shall retain 2.5% of the total contract value until such time as acceptance of the work occurs and the final payment becomes due. The retention shall be withheld at a rate of 5% from payments for work completed until 2.5% of the total contract value has been retained. Thereafter no further retainage will be due or withheld from payments for completed work. This retainage schedule is in lieu of CDOT Standards Specifications (2023) Section 109.06. If applicable, the Contractor shall make payments to its subcontractors in accordance with C.R.S. Section 24-91-103.

2.5 The appropriated funds for this project are equal to or exceed the amount of the contract stated in Paragraph 4. Pursuant to C.R.S. § 24-91-103.6(2), any change order or change directive requiring additional compensable work to be performed which work causes the aggregate amount available under the contract to exceed the amount appropriated for the original contract shall be agreed to in writing, signed by both parties and shall assure that the City has made lawful appropriations to cover the costs of the additional work. Any change order or directive made by the City requiring additional compensable work to be performed shall be performed at the hourly rates and/or unit pricing set forth in the contractor’s bid and shall be reimbursed at the contractor's costs on a monthly basis for all additional directed work performed until a change order is finalized. However, in no instance shall the periodic reimbursement be required before the contractor has submitted an estimate of cost to the City for the additional compensable work to be performed.

**PART 3**

**SCOPE OF SERVICES**

3.1 The Contractor shall execute the entire Scope of Services described in the Bid Documents dated __________, any Addenda issued, and the Contractor’s Bid, submitted __________, except to the extent specifically indicated in the Contract Documents to be the responsibility of others.

**PART 4**

**CITY’S RESPONSIBILITIES**

4.1 The City shall provide full information regarding requirements for Work to be performed.

4.2 The City shall designate, when necessary, a representative authorized to act in the City’s behalf with respect to the Project or Project Documents.

4.3 The City shall furnish required information as expeditiously as necessary for the orderly progress of the Work, and the Contractor shall be entitled to rely upon the accuracy and completeness thereof.
PART 5  
DATE OF COMMENCEMENT

5.1 The date of commencement is the date of this Agreement, as first written above, unless a different date is stated below, or provision is made for the date to be fixed in a notice to proceed issued by the City.

PART 6  
CONTRACTOR’S PROJECT SCHEDULE

6.1 The Contractor shall provide a Critical Path Method (CPM) schedule (“Project Schedule”) covering the duration of the Work, beginning with the receipt of the signed Agreement and concluding with Substantial Completion. The follow requirements must be met:

(a) The Project Schedule shall include design, engineering, agency review, permitting process, construction, and anticipated weather days.
(b) The Project Schedule shall contain a sufficient number of activities to allow effective monitoring of the progress of the Work. Each activity shall contain only the Work of a single trade or subcontractor.
(c) Each activity shall be less than ten (10) working days in duration. Procurement and material delivery, surveying, and shop drawing approvals may exceed ten (10) working days in duration. Activities exceeding the (10) working days in duration shall be separated into two or more individual activities by area, type of work, etc. to allow for effective monitoring of the Work.
(d) Each activity shall be cost loaded. The sum of all cost loaded activities shall be equal to the Contract Price. Any costs associated with drawings or submittals shall be included in the cost loading of the Work.
(e) The Project Schedule must include activities that indicate work by others that may affect the Contractor’s Work.

6.2 **Adverse Weather Conditions.** Extensions of time based upon weather conditions shall be granted only if the Contractor clearly demonstrates that such conditions were severe, could not have been reasonably anticipated, and that such conditions adversely affect the Contractor’s Work and thus required additional time to complete the Work.

6.2.1 An adverse weather day must prevent Work for 50 percent or more of the Contractor’s workday, delay Work critical to the timely completion of the Project and be documented by the Contractor and provided to the City within two calendar days. The City will use the written notification in determining the number of calendar days for which Work was delayed during each month.

6.2.2 The Project Schedule must reflect anticipated adverse weather delays on all weather-dependent activities. While extensions of time can be granted for adverse weather as described above, no monetary compensation shall be made by the City for any costs to the Contractor arising out of such delays.
6.3 Contractor shall update Project Schedule on a monthly basis and review with the City on a weekly basis at the weekly progress meeting. Each revision shall indicate actual progress to date, changes resulting from change orders, and planned changes, as necessary to complete the Work in accordance with the Contract Documents.

6.4 All costs associated with the development and maintenance of the Project Schedule shall be borne by the Contractor.

PART 7
TIME FOR COMPLETION AND LIQUIDATED DAMAGES

7.1 The date of beginning and the time for completion of the work are essential conditions of the Contract Documents and the work embraced shall be commenced on the date specified in the Notice to Proceed.

7.2 The Contractor will proceed with the work at such a rate or progress to insure full completion within the Contract time. It is expressly understood and agreed, by and between the Contractor and the Contracting Agency, that the contract time for the completion of the work described herein is a reasonable time, taking into consideration the average climatic and economic conditions and other factors prevailing in the locality of the work.

7.3 Should the Contractor fail to complete the work within the Contract time, or extension of time granted by the Contracting Agency, the Contractor shall pay the Contracting Agency the amount of liquidated damages as specified in the Bid Documents for each calendar day the Contractor may be in default of the time stipulated in the Contract Documents.

7.3.1 The Contractor shall not be charged with liquidated damages provided the delay in completion of the work is due to the following and the Contractor has promptly given written notice of such delay to the Contracting Agency or Engineer.

7.3.1.1 To any preference, priority or allocation order duly assigned by the Contracting Agency.

7.3.1.2 To unforeseeable causes beyond the control and without the fault or negligence of the Contractor, including but not restricted to, acts of God, or of the public enemy, acts of omission of the Contracting Agency, floods, epidemics, quarantine restrictions, strikes, material or fuel shortages due to governmental regulations or allocations, freight embargoes and abnormal or unusually severe weather.

7.3.1.3 Permitting the Contractor to continue and finish the work or any part of it after the time fixed for its completion, or after the date to which the time fixed for its completion may have been extended, will in no way operate as a waiver on the part of the Contracting Agency of any of its rights under the Contract.
PART 8
FINAL INSPECTION AND FINAL PAYMENT

8.1 Final Inspection. The Contractor shall notify the City when the Work is complete and ready for final inspection by means of a letter of completion. Within ten (10) working days thereafter, the City shall make a final inspection to determine whether the Work has been completed in accordance with the Contract Documents and shall submit a written list of any defects to the Contractor. The Contractor shall promptly correct any defects without additional cost to the City within ten (10) working days after receipt of the list of defects. If any defects cannot be corrected within ten (10) working days, the Contractor shall initiate corrective measures within said period of ten (10) working days and shall thereafter pursue correction of such defects promptly and with due diligence. The Contractor shall also deliver to the City all guarantees and warranties, all statements to support state sales and use tax refunds, final plan set, record sets, as-constructed plans, geotechnical reports, documentations and calculations, approved shop drawings, and material testing records as a complete package. The Contractor shall provide the City with a letter of approval for contract closure from any surety furnishing bonds for the Work provided on AIA Form G707 (Consent of Surety Letter).

8.2 Final Acceptance and Final Payment. If the Contractor has completed the Work in a manner finally acceptable to the City (“Final Acceptance”), the City may authorize final payment (“Final Payment”) from the Retained Amount upon written request by invoice of the Contractor and completion of the following conditions:
(a) The City shall determine that satisfactory and substantial reasons exist for the Final Payment;
(b) The City shall require written approval from any surety furnishing bonds for the Work;
(c) The City may require the Contractor to provide evidence that payment has been made to all subcontractors, consultants, and suppliers;
(d) A notice of contractor’s settlement shall have been published in accordance with C.R.S. §38-26-107.

PART 9
CITY’S RIGHT TO STOP THE WORK

9.1 If the Contractor fails to correct defective Work or fails to carry out the Work in accordance with the Contract Documents, the City, by a written order, may order the Contractor to stop the Work or any portion thereof, until the cause for such order has been eliminated.

9.2 The City may order the Contractor in writing to suspend all or any part of the Work for such period of time as the City may determine to be appropriate for the City’s convenience.
9.3 Upon receipt of any such suspension order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize incurring costs allocable to the Work covered by the order during the period of Work suspension.

9.4 If the City, pursuant to paragraph 8.2, suspends the performance of all or any part of the Work, the Contractor may make application for an adjustment in Contract Time and/or Contract Price, as applicable.

**PART 10**

**CITY’S RIGHT TO CARRY OUT THE WORK**

10.1 If the Contractor defaults or neglects to carry out the Work in accordance with the Contract Documents and fails within seven (7) days after receipt of written notice from the City to commence and continue correction of such default or neglect with diligence and promptness, the City may, without prejudice to any other remedies it may have, initiate and complete the necessary work to cure such deficiencies. In such case an appropriate Change Order shall be issued deducting from payments then or thereafter due to Contractor, the cost of correcting such deficiencies, including compensation for any additional services of the City’s consultant’s made necessary by such default, neglect or failure. If payments then or thereafter due the Contractor are not sufficient to cover such amount, the Contractor shall pay the difference to the City by way of reimbursement.

**PART 11**

**UNCOVERING THE WORK**

11.1 If any portion of the Work should be covered contrary to the request of the City or contrary to requirements specifically expressed in the Contract Documents relative to inspection by the City, it must, if required in writing by the City, be uncovered for its observation and inspection and shall be replaced at the Contractor’s expense.

11.2 If any other portion of the Work has been covered, the City may request to see such Work and the Contractor shall uncover it. If such Work is found to be in accordance with the Contract Documents, the cost of uncovering and replacement shall be charged to the City by appropriate Change Order. If such Work is found not to be in accordance with the Contract Documents, the Contractor shall pay such costs unless it is found that the City caused this condition, in which event the City shall be responsible for the payment of such costs.

**PART 12**

**CORRECTION OF WORK**

12.1 The Contractor shall be responsible for the professional quality, technical accuracy, timely completion, and the coordination of all designs, plans, reports, drawings, and other services rendered by the Contractor; and shall, without additional compensation, promptly remedy and correct any errors, omissions, or other deficiencies which may occur.
12.2 The Contractor shall promptly correct all Work rejected by the City as defective or as failing to conform to the Contract Documents observed before Final Acceptance and whether or not fabricated, installed or completed. The Contractor shall bear all costs of correcting such rejected Work, including compensation for the City’s additional services made necessary thereby. This obligation shall survive termination of the Contract. The City shall give such notice promptly after discovery of the condition.

12.3 The Contractor shall remove from the site all portions of the Work which are defective or non-conforming and which have not been corrected, unless the City waives such removal, in writing.

12.4 If the Contractor fails to correct defective or non-conforming Work, the City may correct it in accordance with Part 9 (City’s Right to Carry Out the Work).

12.5 If the Contractor does not proceed with the correction of such defective or non-conforming Work within a reasonable time fixed by written notice from the City, the City may remove such work and may store the materials or equipment at the expense of the Contractor. If the Contractor does not pay the cost of such removal and storage within ten (10) days after billing from the City for such costs, the City, upon ten (10) additional days’ written notice, may sell such Work (materials and equipment) at auction or at private sale and shall account to the Contractor for the net proceeds thereof, after deducting all the costs that should have been borne by the Contractor, including compensation for the City’s additional services made necessary thereby. If such proceeds of sale do not cover all costs that the Contractor should have borne, the difference shall be charged to the Contractor and an appropriate Change Order shall be issued. If the payments then or thereafter due the Contractor are not sufficient to cover such amount, the Contractor shall pay the difference to the City by way of reimbursement.

12.6 The Contractor shall bear the cost of making good all work of the City or separate contractors destroyed or damaged by such correction or removal, unless in the City’s sole discretion, the City agrees to a percentage deduction of the total contract payment, in lieu of said correction or removal of Work.

PART 13
CHANGES IN THE WORK

13.1 The City may from time to time, by written notice to the Contractor, extend the Start or Completion Dates or make changes in the Work necessary or convenient to accomplish the purpose intended by the Contract Documents. The City shall have such further authority, if any, as may be specifically granted or authorized by the City to initiate or process administrative Change Orders affecting the price or quantity of the Work to be performed. A Change Order is a written order to the Contractor signed by the City, issued after execution of the Contract, authorizing a change in the Work or an adjustment in the Completion Date or Contract Price. (a) by mutual acceptance of a lump sum, properly itemized and supported by sufficient substantiating data to permit evaluation.
(b) by unit prices stated in the Contract Documents or subsequently agreed upon; or
(c) by cost to be determined in a manner agreed upon by the parties and a mutually acceptable fixed or percentage fee.
